

PERGAMON

The World's Oldest IQ Test

© CE 220

About 1800 years ago, powerful magician priests worshiped their god, IQ, in the Pergamon Temple in Asia Minor. Fortunate aspirants--desiring to increase devotion to IQ--were administered a test of IQ ascendancy.

Today, that test has been translated into English, from both Egyptian and Greek symbols, by psychic scholars who possessed the keys to unlock Divine Oblation.

You have been intuitively selected to self-administer Pergamon. However, before taking the test, the current High Priest of Pergamon requests that you chant IQ--IPSI--NE-O three times. Good. Now, follow directions and submit your completed test protocol to: ggrove141@aol.com.

MAY THE IQ BE WITH YOU!

Seven priests of differing temperament handled the various activities in the Temple. Look down the list and put a 1 by the priest-type you are drawn to the most. Then, continuing, rank the remaining types 2, 3, 4, 5, 6, 7 in order of your preference. (The Priests were highly intelligent and vital to the on-going work of the Temple. There was no earthly favoritism!)
