- 27) landslide, genre, solid ... ( \_ \_ \_ )
- 28) position, flag, weapon ... ( \_ \_ \_ )
- 29) game, effect, spots ... ( \_ \_ \_ \_ )
- 30) dance, top, circuit ... ( \_ \_ )

## VORTEX test-taking instructions

VORTEX is verbal puzzle containing 30 associations. Solution for each item is just one word (except for item 18). Items are not arranged by difficulty order. For all items, number of letters for correct solutions are given (represented by dashes inside brackets).

This test is not recommended for persons under 18 years old, due to long-term high-power mental activity required in the solving process .

Discussion about items/solutions with others is strictly prohibited.

Two submissions are allowed.

You may use any reference materials and internet sources (like Google/Wikipedia search), but there is no much need for that, since all items are designed using basic words with no rare/complex meaning. Some items ask for more specific knowledge, but it is still part of general knowledge.

VORTEX is designed as a “culture-fair” and “g” (general intelligence) oriented test, as much as a verbal test can be. In other words, it is not intended to investigate your vocabulary or your acquired knowledge. Majority of items ask for associative, simple and precise thinking.

Even though VORTEX is an untimed test, total time of 10-15 hours should be enough for achieving maximum performance (preferably, in a few days to 2 weeks timespan).

Work through items at your own tempo when you feel fresh and inspired.

**This test should be automatically scored at IQexams.net.**

**<https://iqexams.net/test/index.php?test=VORTEX30>**

**You have 5 hours to enter all the answers, but it is better to have prepared all the answers beforehand.**

I wish you enjoyment while giving your best. Good luck!

Miroslav Radojevic, VORTEX author
